DigitalFirst
From MPS

End-to-end project management for book production

We have leveraged our deep experience in book production, digital services, and technology platforms to develop end-to-end digital first workflows for content production and distribution

Key differentiators...

- Experienced onshore and offshore project managers
- Book commissioning and author support services
- Editorial resources for social sciences, humanities, management, economics, science, technology, and medicine
- Talented composition and proofreading resources for school, college, and professional books
- CreativeStudio for artwork and graphics design
- Expertise with XML-based workflows
- Content transformation and digital conversion services including EPUB3 and HTML5
- Animation and interactive content development
- Online content QA services
- Style sheet development and maintenance services
- Online ContentStore for hosting and distribution of eBooks
- End-to-end production workflow management and tracking system
